

> 22DL833

HD-Ready, 50 Hz, DVD-Player integrated

With the DVD-Player that is already integrated into the 22DL833 LED-TV, you can enjoy your favorite movies on the 55cm diagonal screen size.

With this TV you can enjoy your favorite movies without the use of an extra device, as it has a DVD-Player already integrated.

Next to an analogue tuner, this TV also offers a tuner for DVB-T and DVB-C.

LED TV

In LED televisions, LEDs (Light Emitting Diodes) are used for backlighting purposes. When LEDs are used in televisions, they vastly improve picture quality and lower power consumption.

A High Definition (HD) ready TV has a native resolution of 1366x768 pixels and a interlaced resolution of 1920x1080 pixel. He must provide a HDMI or DVI connection with HDCP (=copy protection) support. Furthermore he must be able to display HD-content from any HD-source (for example: BluRay-Player)

With this TV you can enjoy music, videos and images per USB connection.
